

Expect Significant Delays on 50 East Next Week

Shirley Contracting will be conducting a major surface pavement and striping operation next week (the week of November 10, 2014,) on Eastbound 50 between Poland Road and the Cub Run Bridge east of Pleasant Valley (Fairfax).

Weather permitting, the work will be conducted Monday, Wednesday, Thursday and Friday (excluding Tuesday because it is Veterans Day) beginning at 9:30 AM and ending around 6:00 PM each day. Traffic will be temporarily reduced to one lane in the impacted area. The temporary closure will not impact access to or from any of the side streets or businesses along 50 eastbound.

I expect significant delays, so factor that into your planning and use alternative routes if possible.
